Case ID: 027-A
Incident Date: October 1, 2026
Report Date: October 1, 2026
Location: Building B, Room 304
Missing Employee: Dr. Elena Rostova
Position: Head Security Specialist
Case Status: OPEN

1. INCIDENT SUMMARY

On October 1, 2026, Dr. Elena Rostova was reported missing from her office in Building B, Room 304. A review of her workstation revealed suspicious activity involving restricted directories, an unauthorized external data transfer, and a scheduled system cleanup process. Several records appear to have been marked for ***deletion***. The original access logs and the destination of the transferred data have not yet been fully recovered. Initial investigations suggest a potential kidnapping, with Nexus Dynamics' business rivals emerging as persons of interest. The original access logs and the destination of the transferred data have yet to be fully recovered, leaving investigators with more questions than answers.

2. RECOVERED MATERIALS

Several pieces of potential evidence were recovered during the initial investigation.
Due to privacy requirements and the presence of potentially confidential employee information, the contents of the archive are restricted to authorized investigators only.
Access must not be granted based solely on possession of this case file.

Before access to the recovered archive can be authorized, investigators must verify their identity.
